

FABRICS, WADDING AND BATTING

Barnyarns stocks a range of plain fabrics for backgrounds. All our fabrics are supplied ready to dye or paint but we recommend they are washed before use.

Butter Muslin

Useful for backing Italian or Trapunto quilting or for experimental pulled work

Quote	Description	½ Metre	Metre
FAB-M13	White 123cm (48")	£1.40	£2.60

Unbleached Calico

The universally useful fabric! Available in heavy, medium and lightweight

Quote	Description	½ Metre	Metre
FAB-CC27	Heavy Calico 183cm (72")	£2.70	£4.95
FAB-CC57	Medium Calico 160cm (63")	£1.75	£3.25
FAB-CC11	Light Calico 137cm (54")	£1.55	£2.85

Cotton Organdie

Is a sheer, lightweight fabric with a stiff finish that creases very well. We recommend you test before printing or dyeing.

Quote	Description	½ Metre	Metre
FAB-CP15	Organdie White 112cm (44")	£10.30	£19.60
FAB-CP15A	Organdie Black 112cm (44")	£12.65	£23.95

Cotton Lawn

Fabulously fine, sheer cotton with a tight plain weave and graceful drape. Not as stiff as cotton organdie. Sews easily and creases well.

Quote	Description	½ Metre	Metre
FAB-CD18	Lawn White 96cm (38")	£6.65	£12.55

Cotton Velvet

Is a plush, smooth, luxurious deep pile fabric that takes dye and paint beautifully and is fun to machine.

Quote	Description	½ Metre	Metre
FAB-CD29	Velvet White 122cm (48")	£11.50	£21.85

Cotton Drill

Cotton Drill is a firm, strong cotton fabric, prepared for dyeing or printing.

Quote	Description	½ Metre	Metre
FAB-CM17	Drill White 150cm (60")	£4.95	£9.15

Cotton Scrim

A very loosely woven fabric that dyes exceptionally well.

Quote	Description	½ Metre	Metre
FAB-CM1513	Natural 127cm (50")	£1.45	£2.75

Cotton Satin Surface Embroidery

This is a great fabric for most free embroidery. The fabric is closely woven, firm with a slight sheen. Accepts dye and paint beautifully.

Quote	Description	½ Metre	Metre
FAB-CM18	Medium White 140cm (55")	£6.45	£11.95

Wool Viscose felt

A fantastic machine embroidery fabric. The stitches sink into its generous depths and you do not need to use a hoop.

Quote	Description	½ Metre	Metre
FAB-CP14	White 183cm (72")	£7.00	£13.35

Habotai Silk

Available in two weights, medium and light. The lighter of the two is a most delicate silk for painting scarves or lingerie. The medium weight is still a fine silk, suited for silk painting or backgrounds.

Quote	Description	½ Metre	Metre
FAB-S11	Lightweight White 91cm (36")	£4.20	£7.95
FAB-S14	Medium White 91cm (36")	£5.10	£9.65

Heavy Viscose Satin

A very useful fabric with a luxurious sheen that is just wonderful for dyeing, with a cotton back.

Quote	Description	½ Metre	Metre
FAB-L14	White 140cm (55")	£9.75	£18.50

Cross Stitch/Counted Thread Fabrics

A range of pre-packed fabrics for counted thread work and cross stitch. hpi - indicates the number of blocks of thread per inch. The higher the hpi the finer the fabric will be.

Aida

Aida is a 100% cotton fabric specially created for cross stitch with its threads woven in groups to create blocks, allowing you to see easily where the cross stitches should be placed. It comes in 11,14,16 or 18hpi. 11 hpi has large holes, 18 hpi has small holes.

Quote	Description	Price
AID11-C	11 hpi Cream	30 x 45cm (12 x 18") £2.75
AID11-W	11 hpi White	30 x 45cm (12 x 18") £2.75
AID14-C	14 hpi Cream	30 x 45cm (12 x 18") £2.75
AID14-W	14 hpi White	30 x 45cm (12 x 18") £2.75
AID16-C	16 hpi Cream	30 x 45cm (12 x 18") £2.75
AID16-W	16 hpi White	30 x 45cm (12 x 18") £2.75
AID18-C	18 hpi Cream	30 x 45cm (12 x 18") £2.75
AID18-W	18 hpi White	30 x 45cm (12 x 18") £2.75

Waste Canvas

Waste Canvas is standard needlepoint canvas that is held together with a water soluble glue. It is used to aid stitch placement when sewing onto non-evenweave fabrics like clothing, bags and quilts. After completion of the design, the temporary fibres in the canvas are moistened and removed, leaving the finished design in place. A blue thread is often woven every 10 stitches to help with counting. 14 hpi, 68cm wide

Quote	Description	½ Metre	Metre
CAN-MC510	1m x 68cm (27")	£4.25	£7.95

Congress Cloth

100% Linen Congress is a beautiful substitute for finer count linens for all types of counted work. Our congress cloth made by Zweigart is 24 hpi and 127cm wide

Quote	Description	½ Metre	Metre
CAN-9406	127cm Wide	£4.50	£8.55

Zweigart Canvas

We stock Zweigart, the finest quality canvases as we feel that any project worth your time is also worth the best quality materials.

The canvas is available in all gauges from the large 10Hhpi to the finer 18hpi

Zweigart Interlock Canvas

Interlock canvas is woven with a single twisted thread fused into place so that the threads do not move whilst stitching. It is not as strong or as durable as mono canvas but is still ideal for most projects and is used extensively in cushion kits. 100cm (39") wide in White.

stabilisers, fusibles and water solubles

There are many different types of material to be embroidered, ranging from fine silk to pile fabrics and leather goods and it is most important to have a backing fabric, not only to stabilise, but also to ensure the smooth movement of the frame across the base plate of the machine. In addition to providing stability the use of a stabiliser helps to reduce puckering.

Our non-woven backings are available in tear-away or cut-away styles in weights of 40g upwards.

A standard weight backing is about 40g with more than one piece normally used. A heavier backing will reduce the number of pieces required.

Tear away stabilisers

Tear-aways are temporary stabilisers that are easy to remove after your stitching is completed. Recommended for use with medium to heavyweight fabrics and densely stitched embroidery designs. Can be torn away in either a horizontal or vertical direction, and should be removed carefully in order to not disturb the stitches of the design. Not recommended for delicate fabrics or sweaters.

Stitch & Tear. Tear-away (WHITE)

Standard weight, original stabiliser. Our most popular choice, choose this if your not sure! Weight 40g. Width 90cm. 100% Viscose, Easy Tear

Quote	Description	1 Metre	5 Metre

Hoopitall Iron On. FABond

Advanced Tear/Cut Away Stabiliser that can be used to stabilise almost any fabric. Highly recommended for knitwear and stretchy fabrics such as T shirts or Polo Shirts.

FaBond eliminates irritating distortion, slipping and puckering of the fabric and helps keep your needle cool, preventing adhesive build-up on the needle.

When using Fabond to stabilise your fabric it provides extra stabilisation, a whopping 200% more than a standard tear-a-way product Heavy Weight, white only.

STICKY SIA

Hoopitall - SIA™

SIA, made in the USA by Hoopitall Inc., is an exceptional product that permanently stabilises the fabric being sewn by adhering to the back of the Hoop.

The SIA™ adhesive side faces up and the fabric is then placed against the adhesive holding the fabric securely, preventing any undesirable movement and subsequent distortion of the design.

SIA™ Stabiliser is removable without adhesive transfer from the hoop and is designed to resist gumming of the needle, which is a common problem with inferior products. Completely washable and tears like paper. SIA™ is designed to last for the lifetime of the garment, quilt or embroidery. The washing process does not cause the SIA™ to deteriorate and it does not require special cleaning care. Available in white only.

Quote	Description	1 Metre	5 Metre
SIA-W36-1	Per Metre 36cm wide	£3.55	£16.85
SIA-W36-10	10m x 36cm wide	£32.00	-
SIA-W36-R	Roll 36cm x 91m	£285.00	-

Cut away Stabilisers

Cut-aways are permanent stabilisers that are designed to remain with the garment to keep it stable during and after embroidery. Trim away to the stitching line and do not totally remove. Perfect for dense embroidery designs and fabrics that stretch and distort like knits and synthetics. Washes well and is excellent for jobs where the stabiliser comes in contact with the skin and where visibility of the stabiliser is not an issue.

Cut Away

A soft medium weight non woven cut away stabiliser. 100% Viscose, white only.

Quote	Description	1 Metre	5 Metre

Specialist Toppings & Backings

Heat Seal Film

A film of heat reactive glue that is used to adhere to badges after embroidery. Heat seal ties up the loose ends and after removal of the release paper, allows the badge to be fixed to a garment with heat. Suitable only for badges or garments that will require heat fixing. If you wish to just tidy up loose threads, use a standard fusible backing. 52.5cm Wide.

Quote	Description	1 Metre	5 Metre
BA-HSF	Heat Seal Film	£6.95	£33.00

Heat Dissolvable Film (known as Trick Film)

You can embroider directly on to Trick film and it is an ideal backing for lightweight materials if you do not want to see any residue backing fabric. With the application of heat the film disintegrates. Not recommended as a topping for fleece, knitwear or pile fabrics or fine lettering. Always test first to assure yourself of suitability. 50 micron, 50cm wide.

Quote	Description	1 Metre	5 Metre
TRICK	Trick Film	£1.55	£7.35

Thermogaze

A heat-sensitive woven fabric that disintegrates with a hot, dry iron, then brushes away easily. It's like a muslin that vanishes. Easy to see through to trace designs. Because it is woven and firm, it is easy to stitch on when creating Machine Arts. Not compatible with liquids and not water soluble. Perfect for any project where wetting or tearing would cause distortion to stitches or damage to your base material.

Quote	Description	1 Metre	5 Metre
THERMO	Per Metre 80cm wide	£4.55	£21.60

Bodybuilder

Bodybuilder is a 3mm thick foam available in black and white on sheets 30cm x 40cm that is used for 3D embroidery to raise stitches. Place the bodybuilder over the area to be embroidered and embroider as normal. Bodybuilder is perforated and can be easily lifted away even on lettering after embroidery. It may be necessary to raise stitch density.

Quote	Description	1 Sheet	5 Sht

Mistyfuse™

Use paper-less Mistyfuse™ for all weights of fabric from velvets and cottons to delicate tulle and organzas. It's a dream to work with-it handles well, is incredibly sheer, doesn't add bulk to your fused piece and bonds firmly once cooled

Mistyfuse™ will never gum up your scissors or quilting needles. Each package comes with simple instructions for easy fusing with no waste.

20" x 2.5 yards of fuse in each package. (51cm x 229cm) (12.5 square feet)

Quote	Description	Pack
MISTY	White Misty	£9.70
MISTY-B	Black Misty	£9.70

Charlottes Fusible Web 115yds

Not many quilters & embroiderers are familiar with fusible thread, but it's great for machine appliqué.

It looks a lot like dental floss. If you lay it out and steam it with your iron, the thread will shrivel up. It will bond fabric to fabric in a very thin line - the width of the thread. If you use a zigzag stitch, it gives more of a bonding area. Use in the bobbin with Monopoly on the top.

Article	Description	EACH	ANY 3
SUP-CFW	115yd Reel	£3.99	£11.60

Steam-A-Seam Lite

The original, Steam-A-Seam Lite sticky back, has the pressure sensitive adhesive (the "stick") on one side which allows for a temporary hold to the appliqué material. It shifts easily on the second material allowing you to quickly reposition your appliqué pieces until pressed with an iron for a permanent bond. Once fused the bond is the same as Steam-A-Seam2. Use for seams, trims, hems, appliqué and craft projects, will not gum up the needle.

Quote	Description	Each	5 Metre
STEL-1	12" (30cm) x 1m piece	£5.45	£25.80

STEL-TAPE	LITE - ¼ inch x 40yds tape	£3.95	-
STEL-912	9x12" (22x30cm) 5 Sheet Pack	£3.95	-

Steam-A-Seam2 Lite Double Stick

Steam-A-Seam2 Lite Double Stick has the pressure sensitive on both sides which allows for a temporary hold to both the appliqué material and the background material. You can hold your project vertically and the appliqué pieces stay in place and are still repositionable until fused with an iron. Before fusing, tack your project to a wall or try on a garment to check appliqué placement. You're able to reposition pieces while you're wearing them. Once fused the bond is the same as the Lite Steam-A-Seam.

Transfer adhesive

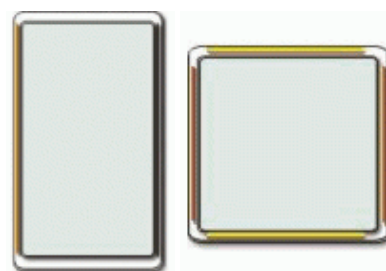

A strong, heat reactive, adhesive which permanently bonds one fabric to another when ironed. A design can be drawn on the paper backing, cut out and pressed with a hot iron fusing it to a fabric, paper wood, cardboard felt etc. Another fabric can then be placed on top when the paper backing is removed to permanently bond the two together. Sold by the metre 90cm (36") wide.

Hoop-It-All Revolutionary Hoops

Whether you Embroider for FUN or PROFIT, experience faster, better quality embroidery with less puckering on these super sized embroidery hoops.

Using a Hoop-It-All hoop is definitely more relaxing. It's easier on your hands and practically eliminates the need to re-hoop your fabric. There are over 195 variations of hoops, individually crafted to suit individual machines in the Hoop-It-All range.

ALL Hoop-It-All hoops have one thing in common. You never stretch the fabric between 2 hoop frames as with conventional hoops. Each Hoop-It-All has a flat surface designed for use with the SIA™. Pressure sensitive tear-away temporary stabilizer. SIA™ has a temporary adhesive on one side and a removable release liner on the other which sticks to the bottom of the hoop, leaving a sticky surface within the embroidery field area. You simply lay your fabric down on the sticky surface within the hoop frame-that's it! Your fabric stays put and when you're done, simply tear the embroidery away from the SIA™.

Hoop-It-All Hoops have revolutionised embroidery by making it unnecessary to re-hoop for huge designs. Unique sliding-hoop technology makes it possible and it is so easy to use-you may never use the hoops that came with your machine again!

As you will appreciate, it is not possible to itemize the list of hoops within these catalogue pages.

Therefore to obtain details of the hoops available for your machine we refer you to our internet pages at www.barnyarns.co.uk or kindly ask that you call us on our **Hoop It All Freephone number**

0800 018 1002

When you call we will require your telephone number or email address and the make and model of your machine to provide a list of the available products.

STABILISERS, FUSIBLES AND WATER SOLUBLES

aquatics

The Aquatics range of water soluble Wash-aways come pre-packed with instructions, by the metre or by the roll. The Full range set includes 1 pack with instructions of each of the 3 types at a very special price (see below). All cold water soluble.

SOLUBLE PAPER

Use as a stabiliser as well as for project design transfer. It is strong enough to reinforce delicate fabrics without adding bulk or changing the characteristics of the fabric. Paper can be drawn or printed on and can be embroidered through to transfer original fashion and quilt designs. Dissolves completely away in cold water leaving no residue.

Quote	Description	Price
AQ-PA	Packed 79cm x 55cm	£5.00
AQ-PAM	Per Sheet - 79cm x 55cm	£4.25
AQ-PA10	10 Sheets - 79cm x 55cm	£38.30

ROMEO - HEAVY SOLUBLE

Romeo is the heaviest weight soluble we supply. It works as well OUT of the hoop as in the hoop. Used for lace, stitched sculptures, Jewellery, special effects, free motion or digitised designs. Romeo can be over printed with your design using an inkjet printer (use a sheet of paper as a 'carrier' to support the film) 30" (76cm) wide

Quote	Description	Price
AQ-RO	Packed 76cm x 50cm	£5.00
AQ-ROM	Per Metre - 76cm x 1m	£4.99
AQ-RO10	Multibuy - 76cm x 10m	£44.90
AQ-ROR	Full Roll - 76cm x 25m	£95.70

AQUASOL SOLUBLE FABRIC - Metre/Roll

Aquasol is a soluble product that offers all the benefits of the original water-soluble film but with added strength to make it easier to handle, eliminating the frustrating tears and holes that often appear in the finer film.

Appearing like a fine muslin fabric, it can be used for all water soluble applications. Try it as a backing fabric, just wash it away to leave no fibres and no residue. Both hand and machine needle workers can use Aquasol.

Available packed (1m x 50cm) with full instructions and project. By the metre & By the roll 100m x 50cm

Quote	Description	Price
AQ-AQ	Packed 50cm x 1m	£4.25
AQ-AQM	Per Metre - 50cm x 1m	£3.80
AQ-AQ10	Multibuy - 50cm x 10m	£34.20
AQ-AQR	Full Roll - 50cm x 100m	£185.00

AQUA-FR Full Range 1 each x3 Packs **£12.80**

DMC Soluble Canvas

Perfect for customising home décor items such as cushions and pillows, as well as almost any clothing garment, DMC's Soluble Canvas is a revolution.

The 14ct Soluble Canvas is used in exactly the same way as Aida when stitching, all you need to do is choose your design, tack the canvas to your chosen material and cross stitch as usual...simply place the finished design in a bowl of warm water and the canvas disappears leaving you with a unique customised piece. 8" x 9" (20 x 22cm)

CAN-DMCS	14 hole	£4.25	£12.00

Fibertex (Tyvek)

When heated with an iron or heat gun Fibertex shrinks into a lovely bubbly, textured surface.

Similar to Tyvek it's a fabulous base for creative work. Fibertex is like paper, but stronger and water resistant, it's softer and more pliable when heated than the original Tyvek, so is more suited towards the embroiderer. Paints and dyes are readily accepted and it can be cut with little fear of tearing, accepting a needle both by hand and machine. Roll is 1.5m wide.

Quote	Description	½ Metre	Metre
FAB-FIB	Fibertex White 150cm (59")	£5.85	£10.45

Lightweight Soluble Film - Solulight

Cold Water Soluble Fabric is a thin opaque plastic film which can be embroidered with inter-linking stitches or can be placed over a ground material to stabilise the fabric. The fabric is dissolved by immersion in water or by cold water spray with a soak period of approximately 3 minutes.

Dissolve times may vary according to the density of the ground material. Available by the metre 1m x 1m (minimum) By the roll 100m x 1m

Quote	Description	1m	5 Metre
SOLU-L1	Per Metre - 100cm x 1m	£3.70	£17.60
SOLU-L10	Multibuy - 100cm x 10m	£33.30	-
SOLU-LR	Per Roll - 100cm x 100m	£165.00	-

Heavyweight Soluble Film - SoluHeavy

Cold water 'SoluHeavy' is the heaviest water soluble film. It can be used for lace, jewellery, special effects, stitched sculptures, free motion or digitised designs.

Quote	Description	1m	5 Metre
SOLU-H1	Per Metre - 76cm x 1m	£3.80	£18.00
SOLU-H10	Multibuy - 76cm x 10m	£34.20	-
SOLU-R	Per Roll - 76cm x 50m	£135.00	-

Hot Water Soluble Fabric

The Hot Water Soluble Fabric is a more substantial fabric similar to a white organdie. Designs can be traced directly onto HWSF without difficulty.

The fabric is used in much the same way as the CWSF but it has the advantage of having more stability thereby allowing heavy designs and more accurate embroidery. To dissolve HWSF, simmer in boiling water. As with all new processes it is highly recommended that a small sample is produced before use.

Quote	Description	1m	5 Metre
HWSF	Per Metre - 110cm x 1m	£10.00	£47.50
HWSF-10	Multibuy - 110cm x 10m	£90.00	-

Hoop-It-All Soluble Films

Both S-DSV & DSV™ are exclusive products of Hoop-It-All. The clear film completely dissolves in about 3 minutes in room temperature water. Both are 300% stiffer than some other water-soluble stabilizers, to provide greater ease of use and handling with 400% less stretch, preventing embroidery distortion and puckering.

The adhesive coating on the S-DSV is factory applied and is then protected by a release liner until ready for use. It's sticky that's for sure, as it was originally produced to use with the Hoop-It-All™ giant hoops when embroidering on sheer see-through fabrics.

Quote	Description	1m	5 Metre
DSV-1	Soluble Film 43cm x 1m	£3.75	£18.75
DSV-10	Soluble Film 43cm x 10m	£33.80	-
SDSV-1	Sticky Film 37cm x 1m	£9.50	£45.95
SDSV-10	Sticky Film 37cm x 10m	£85.50	-

STABILISERS, FUSIBLES AND WATER SOLUBLES / water solubles

accessories / cutting tools and rulers

Clover Slash Cutter

Slash cutting creates a fluffy mock chenille fabric, created by stacking four to six pieces of cotton, rayon, or silk fabric in a sandwiched layer. Using a sewing machine, the layers are then quilted through on the diagonal with parallel lines 1/4 inch to an 1 inch apart.

The slash cutter is then used to slash all but the bottom layer of fabric between the stitching lines. The resulting layered fabric is then machine washed and dried to make the cut edges neatly "bloom" (difficult to describe this final finish but if you can envisage a chenille thread the finish is very similar). Because the stitching and slashing are done on the bias, the edges fluff up in a cushy pile with no ends to unravel and are fantastically soft.

Supplied with two inter-changeable guides, one for straight lines and one for curved slash cutting. The rotary cutter has a slender foot that is inserted between two stitching lines

Art.CL499 £12.50

Olfa Standard-Duty Slide Lock Cutter

Multipurpose snap-off cutter, ideal for light-duty cutting. With built-in blade snapper. Long lasting, durable snap-off blade - a new sharp edge with each snap. Easy, tool-free blade change for convenience.

Spare Blade (OL-AB-10B)
Art.OL-180BLK £3.10

Olfa - Standard Art Knife

This standard-duty art knife. Acutely pointed blade for precision with contoured handle. Quick-spin easy blade change. For right and left handed use. Package includes 5 spare blades.

Spare Blade (OL-KB)
Art.OL-AK1 £5.85

Olfa - Small Art Knife

Very sharp design knife with pen handle and quick-spin blade change. Package includes 30 spare blades.

Spare Blade (OL-KB3)
Art.OL-AK3 £7.25

Olfa - Precision Art Knife

Professional art knife. Quick-spin blade changing, perfectly balanced design and an anti-roll device. Package includes (2) precision blades, (1) chisel blade and (1) curved carving blade. Spare blade (S) all beginning KB4

Art.OL-AK4 £16.25

Olfa - 18mm Rotary Cutter

Hobby rotary cutter with an 18mm stainless steel rotary blade. Accommodates both right and left-handed users.

Spare Blade:- RB18-2
Art.OL-RTY-4 £10.00

Olfa - 28mm Rotary Cutter

For small-scale projects and tight corners. Designed for both right- and left-handed use.

Spare Blade:- RB28-2
Art.OL-RTY-1G £8.95

Olfa - 28mm Deluxe Rotary Cutter

Ergonomic design, for a secure grip. Squeeze the handle to engage the blade. Dual-action safety lock. right and left hand use.

Spare Blade:- RB28
Art.OL-RTY-1DX £14.95

Olfa - 45mm Rotary Cutter

The most popular size available, this cutter features a durable handle with a blade cover for safety. For right and left hand use.

Spare Blade:- PIB45,WAB45, RB45
Art.OL-RTY-2G £11.25

Olfa - 45mm Deluxe Rotary Cutter

A rolling razor blade perfect for all sewing and quilting needs. Comfortable ergonomic handle. With dual-action safety lock. For right and left hand use.

Spare Blade:- RB45,WAB45,PIB45
Art.OL-RTY-2DX £16.95

Olfa - 45mm Rotary Cutter Pinking

Circular rotary cutter with pinking blade designed to place "teeth" on the edge of fabric to reduce raveling and to add a unique edge to any project.

Spare Blade:- PIB45,WAB45, RB45
Art.OL-PIK2 £14.95

Olfa - 60mm Rotary Cutter

OLFA's largest rotary cutter, sharp enough to cut through 8 layers of fabric and difficult materials. For right and left hand use.

Spare Blade:- RB60
Art.OL-RTY-3G £16.95

Olfa - 60mm Deluxe Rotary Cutter

Features OLFA's new ergonomic design providing a comfortable and positive grip. For multiple layers of fabric and difficult materials. For right and left hand use.

Spare Blade:- RB60
Art.OL-RTY-3DX £26.10

Olfa - Ratchet Rotary Compass Cutter

This one actually works! Get started on those yo-yo quilts... Groundbreaking rotary cutter means no more dragging the blade through bunched fabric or dealing with stabilisers, produce clean and perfect circles every time. Innovative, patented ratchet handle is simple and easy to use and greatly reduces wrist fatigue. Cuts circles from 2" - 8.5" (4cm to 22cm). The built in blade cover, covers the pivot spike when not in use. 18mm stainless steel rotary blade designed for both right- and left-handed use. Spare Blade:- RB18-2

Art.OL-CMP3 £16.50
